

Gardening from a Hammock Talk by Master Gardener Dan Cooper

Would you like to learn how to garden from a hammock? No doubt you're asking yourself how that's possible.

Well, Master Gardener and world traveler Dan Cooper would love to show you how to create your own low-maintenance garden and still find time to relax in the hammock.

Dan's entertaining 45-minute presentation is inspired by his book *Gardening from a Hammock* and features plant suggestions, gardening tips, plant combinations for low-maintenance gardening, and much more.

The selections of easy-care plants were chosen by well-known gardening experts, including Paul Zammit, Dugald Cameron, Marion Jarvie, and Marjorie Mason, among others.

The *Gardening from a Hammock* presentation:

- features lovely photographs of easy-care plants by award-winning photographer Paul Zammit and other professional photographers
- teaches you about water conservation and drought-tolerant plants
- gives tips on how to minimize weeding and cut down on the time spent on the chores of gardening so that you have more time to enjoy your garden
